# Solace in open-plan spaces

An escape from the hum and bustle of the open-plan office, Vicinity™ is a simple, intelligent desk screen system that provides both physical and acoustic shelter; a sanctuary for focused, independent work.

Vicinity Desk Screens are made from 100% polyester fiber, designed to be fixed non-destructively to any desk via the Vicinity Desk Clamps. As a modular desk screen system, Vicinity Desk Screens and Clamps work in collaboration; the die-cast zinc clamps slot comfortably into the screen via pre-cut sockets which are then fixed to the desk using a single Allen key.

The Vicinity range features a curated collection of flat and pressed screens. Flat screens offer classic, understated design with simple contemporary shapes and a smooth finish, while pressed screens have a soft, sophisticated look with sleek, rounded edges and a minimalist embossed design.

To find out more about Vicinity Desk Screens visit [www.autexglobal.com](http://www.autexglobal.com)

#### Features and benefits

- Delivers excellent acoustic performance
- Solid color and smooth finish, no capping required
- Pinnable surface
- UV resistant qualities
- Easy to clean
- Customizable
- Easy to install and move
- Made from compressed 100% polyester felt and does not contain formaldehyde, crystalline silica, or other carcinogens
- Low VOC—beneficial for IEQ
- High recycled polyester content
- Highly durable, assuring long-term stability and performance

#### Applications

- Suitable for a variety of workspaces, including: commercial and home offices, classrooms, and libraries

# Pressed Screens

With sleek, rounded edges, and a minimalist embossed design, Pressed Screens bring a unique textural aesthetic to the Vicinity Desk Screen range. Effortlessly enhance furnishing design in open-plan workspaces with our Pressed Screen in Polka, or put your own stamp on your space with a custom pattern.

Through a molding process, the screen is heated, then pressed, to create an embossed pattern with rounded edges on each side. This allows for pattern continuity, so your screen looks good from any angle. The rounded edges offer a softer, more sophisticated look—creating the illusion of a thinner screen.

#### **Pressed Screen customization**

As every workspace is different, Pressed Screens can be customized to fit your brief. Customization options include pressing bespoke designs or textures into the screen, custom colors, and custom shapes. MOQ's apply.

# Vicinity™ Desk Clamps

To allow for creative freedom and effortless installation, Vicinity Desk Clamps are designed to clamp Vicinity Desk Screens to any desk at a 90 degree angle—without marking or damaging the desk. Made locally from die-cast zinc, Desk Clamps are available in three colors—black, white and silver—so they blend seamlessly with the aesthetics of any workspace. Desk Clamps are durable, easy to assemble, and recyclable at the end of their life. As they are an essential part of the Vicinity Desk Screen set, Desk Clamps are not sold separately.

## Customization

As creators and innovators, we understand your pursuit of the bold and unusual, the rare and exceptional—the brave, color-outside-the-lines ideas. Every space you design is unique, therefore, every element—from floor to ceiling—should be tailored to fit. Our customization tools offer unique avenues for creative expression to help you achieve your vision—all that's left to explore are the boundaries of your imagination.

Our customization capabilities include Print, Etch, Groove, Precision Cut, Mold and Press, and Peel 'n' Stick.

## Caring for the environment

Vicinity Desk Screens are manufactured using 100% polyester fiber and contain a minimum of 60% recycled fiber (from PET plastics). Our products are designed to be recycled at the end of their life too.

We have continual improvement programmes in which we implement a range of initiatives to mitigate the environmental 'hotspots' that we have identified. Our products are GreenRate Level A, Health Product Declaration (HPD), and CDHP Standard certified.

Vicinity is made from Cube which is DeclareSM certified to be Red List free and can be used in Living Building Challenge projects. Autex has a high functioning Environmental Management System (ISO 14001) to enhance our environmental performance and contribute to sustainable development.
